

ARE YOU READY FOR THE NEW TANK REGULATIONS IN WALES?

Every year in
Wales up to

3000

water pollution
incidents are
caused by oil

From **15th March 2020**
storage tanks holding
over **200 litres** of
oil must be

110%

bunded (have a second skin)
to prevent pollution²

But only

28%

of serious
incidents are
reported¹

The regulations relate to the
storage of:

-  **Petrol**
-  **Heating oil**
-  **Road diesel**
-  **Waste oil**
-  **Red diesel**
-  **Vegetable oil**
-  **Lubricants**
-  **Plant oil**

And apply to:

**Industrial and
commercial
businesses**

Institutions

Farms

Need a fuel, lubricant or
tank supplier that's reliable,
competitive, and compliant
with all oil regulations? Certas
Energy's **130** local depots, **900**
tankers, and friendly local teams
are always here to help.

Owners who fail to
comply risk fines
of up to

£5,000

and could face prosecution.

Unsure whether your tank is compliant?
Contact your local team to find out.
